PhD candidate at the Department of Computer Science and Engineering, University of Ioannina, working on query processing for Business Intelligence environments. My research focuses on the design, implementation, and optimization of intentional operators to automatically extract highlights from multidimensional datasets.

EDUCATION

PhD Candidate in Computer Science

University of Ioannina, Ioannina, Greece March 2025 – present

- Thesis topic: *Business Intelligence, Online Analytical Processing (OLAP) and highlight extraction over business analytics datasets.*
- Thesis title: *Query Processing for Queries Combining Data and External Software Modules.*
- Advisor: Prof. Panos Vassiliadis

Diploma in Computer Engineering and Informatics

University of Ioannina, Ioannina, Greece September 2017 – July 2023

- Diploma grade: 7.68/10
- Diploma thesis: *The ANALYZE operator in a business intelligence environment.*
- Key courses: *Advanced Topics in Database Technology and Applications, Complex Data Management, Data Mining, Databases, Software Engineering.*

PUBLICATIONS

International peer-reviewed conferences

- M. Iakovidis, P. Vassiliadis, “Multi-Query Optimization for the novel ANALYZE operator”, 28th International Workshop on Design, Optimization, Languages and Analytical Processing of Big Data (DOLAP 2026), Tampere, Finland, 2026. Presented by the author.

TECHNICAL SKILLS

- **Programming languages:** Java, Python, SQL, JavaScript / TypeScript
- **Databases:** PostgreSQL, MySQL
- **Frameworks & tools:** Angular, Node.js, Git, Docker, LaTeX
- **Other:** WebRTC, REST APIs, Linux

WORK EXPERIENCE

Military Service – Research and IT Office

Hellenic Army November 2023 – November 2024

- Maintenance and support of the internal network of the Formation Headquarters.
- Security and management of classified data.
- Repair of network equipment.

Cloud Software Engineer (Internship)

Terracom Ltd., Ioannina, Greece July 2021 – August 2021

- Applied real-time multimedia technologies (*WebRTC*).
- Designed a backend server for peer-to-peer communication.
- Developed a video chat application using *Angular*.

- Cloud deployment.

RESEARCH INTERESTS

Databases | Online Analytical Processing (OLAP) | Business Intelligence | Highlight Extraction | Query Optimization | Complex Data | Data Mining | Software Engineering

ADDITIONAL

- Certificate of Proficiency in English (University of Michigan).
